

The program of specialist studies in the field of public procurement, the first and only in Bosnia and Herzegovina, is intended for students who are in their current and / or future professional orientation, interested in acquiring and improving knowledge in the field of planning, launching and conducting public procurement procedures, legal protection and management of contracts in public procurement procedures, both in the position of the contracting authority and in the position of the tenderer.

The main objectives of the program are:

- Provide candidates with knowledge and skills at the postgraduate level in the field of national (BiH), European (EU Directive) and international (WTO, World Bank and UNCITRAL) public procurement laws and strategies.
- Create specialist administrative skills and knowledge to enable candidates to be able to apply properly applicable public procurement rules, and in compliance with the strategic objectives and interests of the organization with market analysis, can independently carry out the public procurement procedure.
- To provide a flexible program that allows candidates to develop national, European and international perspectives on issues from the practice of the Public Procurement Law.
- Through the second cycle of studies, the Faculty of Administration opted to be an academic carrier and contributing factor to the progress of Bosnia and Herzegovina in meeting European demands and priorities.
- To achieve a recognizable postgraduate study which is not directed towards traditional teaching methods, but encourages individual and team work in the function of perception of public procurement in the administration, etc.

The Master of Administration is a person who is qualified to work on the most complex tasks in enterprises and institutions, as well as other institutions, in the tasks and tasks of planning, initiating and conducting public procurement, legal protection and contract management in public procurement procedures where individual and team work, making the most important decisions, as well as managing tasks.

The study is conducted in two semesters (one-year)
